UNITED STATES DISTRICT COURT
FOR THE NORTHERN DISTRICT OF CALIFORNIA
SAN FRANCISCO DIVISION

IN RE: DA VINCI SURGICAL
 ROBOT ANTITRUST LITIGATION

THIS DOCUMENT RELATES TO:
 ALL ACTIONS

Case No.: 3:21-cv- 03825-AMO-LB

~~[PROPOSED]~~ AMENDED OMNIBUS
 SEALING ORDER

Judge: The Honorable Araceli Martínez-Olguín

This Court, having considered the Parties' Motion to Amend Omnibus Sealing Order re: Class Certification Briefing, as well as the Omnibus Sealing Motion re: Class Certification Briefing, the statements and declarations filed in support of the motion, and the proposed order prepared for the Court, Dkt. 304, and the Amended Omnibus Sealing Motion re: Class Certification Briefing and the proposed amended order prepared for the Court, Dkt. 330, and all arguments by counsel, rules as follows:

The Court finds that compelling reasons exist to support the filing under seal of the documents or portions thereof listed as "granted" in the following chart and grants the requesting party's motion to seal these documents or portions thereof where they appear on the public docket. The Court denies the request to seal any documents or portions thereof either (1) listed as "denied" in the following chart or (2) filed under provisionally seal pursuant to Local Rule 79-5(f) because a Party or Third-Party designated the document or information as confidential or highly confidential under the protective order but which no Party or Third-Party sought to maintain under seal by filing a statement or declaration pursuant to Local Rule 79-5(f).

The Parties are directed to file new public-facing versions of any materials that were previously under seal within 7 days following the Court's order on the omnibus sealing motion.

Document or title or description	Dkt. of publicly-filed version	Dkt. of sealed version	Dkt. of decl. in support of sealing	Party seeking sealing	Sealing sought	Brief statement of reason for sealing (with citation to corresponding declaration in support of sealing)	Granted/ Denied (leave blank)
Plaintiffs' Sealing Requests
